Could you bake a billion cookies exactly alike?

TEXAS EASTERN SERVES THE COMPANIES THAT SERVE YOU Direct-fired gas ovens assure the uniform high quality of Ritz crackers. Natural gas is supplied the National Biscuit Company's Pittsburgh bakery by the Equitable Gas Company, a customer of Texas Eastern.

If you-were baking for Nabisco's millions of families, each and every cookie or cracker — of a given variety — would have to be identical... in shape...in texture and taste. To maintain the uniform high quality of its products, the National Biscuit Company uses natural gas-fired ovens. Natural gas permits baking temperatures to be exactly controlled...burns cleanly...and is economical. You'll find gas the ideal fuel for all your cooking and baking, too.

> TEXAS EASTERN Corporation SHREVEPORT, LOUISIANA

Through a pipeline system of more than 4500 miles Texas Eastern transports natural gas from

Custom Royal Lancer V-8 in dramatic new three-tone exterior styling.

A car'of noble proportions, gallant and gay, and born to rule the road in flashing style!

In every age, there are those who are not content with the humdrum, the commonplace, If you are one of these, the Royal Lancer speaks directly to your heart.

For here is a car that fairly breathes adventure. You sense it in the bold forward thrust of its hood, the sweep of rear deck, the rakish slant of the New Horizon windshield.

Its beauty is not calm and placid, but eager and alive—the measure of performance that stems from the most advanced aircraft-type V-8 engine on the road.

And should you choose to make this car yours you will have this assurance: In any company of automobiles, there is nothing to challenge the distinction of your Royal Lancer by Dodge. Take Command ... Get the Thrill First Hand

Could you bake a billion cookies exactly alike?

TEXAS EASTERN SERVES THE COMPANIES THAT SERVE YOU Direct-fired gas ovens assure the uniform high quality of Ritz crackers. Natural gas is supplied the National Biscuit Company's Pittsburgh bakery by the Equitable Gas Company, a customer of Texas Eastern.

If you-were baking for Nabisco's millions of families, each and every cookie or cracker — of a given variety — would have to be identical... in shape...in texture and taste. To maintain the uniform high quality of its products, the National Biscuit Company uses natural gas-fired ovens. Natural gas permits baking temperatures to be exactly controlled...burns cleanly...and is economical. You'll find gas the ideal fuel for all your cooking and baking, too.

> TEXAS EASTERN Corporation SHREVEPORT, LOUISIANA

Through a pipeline system of more than 4500 miles Texas Eastern transports natural gas from

Custom Royal Lancer V-8 in dramatic new three-tone exterior styling.

A car'of noble proportions, gallant and gay, and born to rule the road in flashing style!

In every age, there are those who are not content with the humdrum, the commonplace, If you are one of these, the Royal Lancer speaks directly to your heart.

For here is a car that fairly breathes adventure. You sense it in the bold forward thrust of its hood, the sweep of rear deck, the rakish slant of the New Horizon windshield.

Its beauty is not calm and placid, but eager and alive—the measure of performance that stems from the most advanced aircraft-type V-8 engine on the road.

And should you choose to make this car yours you will have this assurance: In any company of automobiles, there is nothing to challenge the distinction of your Royal Lancer by Dodge. Take Command ... Get the Thrill First Hand

Could you bake a billion cookies exactly alike?

TEXAS EASTERN SERVES THE COMPANIES THAT SERVE YOU Direct-fired gas ovens assure the uniform high quality of Ritz crackers. Natural gas is supplied the National Biscuit Company's Pittsburgh bakery by the Equitable Gas Company, a customer of Texas Eastern.

If you-were baking for Nabisco's millions of families, each and every cookie or cracker — of a given variety — would have to be identical... in shape...in texture and taste. To maintain the uniform high quality of its products, the National Biscuit Company uses natural gas-fired ovens. Natural gas permits baking temperatures to be exactly controlled...burns cleanly...and is economical. You'll find gas the ideal fuel for all your cooking and baking, too.

> TEXAS EASTERN Corporation SHREVEPORT, LOUISIANA

Through a pipeline system of more than 4500 miles Texas Eastern transports natural gas from

Custom Royal Lancer V-8 in dramatic new three-tone exterior styling.

A car'of noble proportions, gallant and gay, and born to rule the road in flashing style!

In every age, there are those who are not content with the humdrum, the commonplace, If you are one of these, the Royal Lancer speaks directly to your heart.

For here is a car that fairly breathes adventure. You sense it in the bold forward thrust of its hood, the sweep of rear deck, the rakish slant of the New Horizon windshield.

Its beauty is not calm and placid, but eager and alive—the measure of performance that stems from the most advanced aircraft-type V-8 engine on the road.

And should you choose to make this car yours you will have this assurance: In any company of automobiles, there is nothing to challenge the distinction of your Royal Lancer by Dodge. Take Command ... Get the Thrill First Hand

Could you bake a billion cookies exactly alike?

TEXAS EASTERN SERVES THE COMPANIES THAT SERVE YOU Direct-fired gas ovens assure the uniform high quality of Ritz crackers. Natural gas is supplied the National Biscuit Company's Pittsburgh bakery by the Equitable Gas Company, a customer of Texas Eastern.

If you-were baking for Nabisco's millions of families, each and every cookie or cracker — of a given variety — would have to be identical... in shape...in texture and taste. To maintain the uniform high quality of its products, the National Biscuit Company uses natural gas-fired ovens. Natural gas permits baking temperatures to be exactly controlled...burns cleanly...and is economical. You'll find gas the ideal fuel for all your cooking and baking, too.

> TEXAS EASTERN Corporation SHREVEPORT, LOUISIANA

Through a pipeline system of more than 4500 miles Texas Eastern transports natural gas from

Custom Royal Lancer V-8 in dramatic new three-tone exterior styling.

A car'of noble proportions, gallant and gay, and born to rule the road in flashing style!

In every age, there are those who are not content with the humdrum, the commonplace, If you are one of these, the Royal Lancer speaks directly to your heart.

For here is a car that fairly breathes adventure. You sense it in the bold forward thrust of its hood, the sweep of rear deck, the rakish slant of the New Horizon windshield.

Its beauty is not calm and placid, but eager and alive—the measure of performance that stems from the most advanced aircraft-type V-8 engine on the road.

And should you choose to make this car yours you will have this assurance: In any company of automobiles, there is nothing to challenge the distinction of your Royal Lancer by Dodge. Take Command ... Get the Thrill First Hand

Could you bake a billion cookies exactly alike?

TEXAS EASTERN SERVES THE COMPANIES THAT SERVE YOU Direct-fired gas ovens assure the uniform high quality of Ritz crackers. Natural gas is supplied the National Biscuit Company's Pittsburgh bakery by the Equitable Gas Company, a customer of Texas Eastern.

If you-were baking for Nabisco's millions of families, each and every cookie or cracker — of a given variety — would have to be identical... in shape...in texture and taste. To maintain the uniform high quality of its products, the National Biscuit Company uses natural gas-fired ovens. Natural gas permits baking temperatures to be exactly controlled...burns cleanly...and is economical. You'll find gas the ideal fuel for all your cooking and baking, too.

> TEXAS EASTERN Corporation SHREVEPORT, LOUISIANA

Through a pipeline system of more than 4500 miles Texas Eastern transports natural gas from

Custom Royal Lancer V-8 in dramatic new three-tone exterior styling.

A car'of noble proportions, gallant and gay, and born to rule the road in flashing style!

In every age, there are those who are not content with the humdrum, the commonplace, If you are one of these, the Royal Lancer speaks directly to your heart.

For here is a car that fairly breathes adventure. You sense it in the bold forward thrust of its hood, the sweep of rear deck, the rakish slant of the New Horizon windshield.

Its beauty is not calm and placid, but eager and alive—the measure of performance that stems from the most advanced aircraft-type V-8 engine on the road.

And should you choose to make this car yours you will have this assurance: In any company of automobiles, there is nothing to challenge the distinction of your Royal Lancer by Dodge. Take Command ... Get the Thrill First Hand

Could you bake a billion cookies exactly alike?

TEXAS EASTERN SERVES THE COMPANIES THAT SERVE YOU Direct-fired gas ovens assure the uniform high quality of Ritz crackers. Natural gas is supplied the National Biscuit Company's Pittsburgh bakery by the Equitable Gas Company, a customer of Texas Eastern.

If you-were baking for Nabisco's millions of families, each and every cookie or cracker — of a given variety — would have to be identical... in shape...in texture and taste. To maintain the uniform high quality of its products, the National Biscuit Company uses natural gas-fired ovens. Natural gas permits baking temperatures to be exactly controlled...burns cleanly...and is economical. You'll find gas the ideal fuel for all your cooking and baking, too.

> TEXAS EASTERN Corporation SHREVEPORT, LOUISIANA

Through a pipeline system of more than 4500 miles Texas Eastern transports natural gas from

Custom Royal Lancer V-8 in dramatic new three-tone exterior styling.

A car'of noble proportions, gallant and gay, and born to rule the road in flashing style!

In every age, there are those who are not content with the humdrum, the commonplace, If you are one of these, the Royal Lancer speaks directly to your heart.

For here is a car that fairly breathes adventure. You sense it in the bold forward thrust of its hood, the sweep of rear deck, the rakish slant of the New Horizon windshield.

Its beauty is not calm and placid, but eager and alive—the measure of performance that stems from the most advanced aircraft-type V-8 engine on the road.

And should you choose to make this car yours you will have this assurance: In any company of automobiles, there is nothing to challenge the distinction of your Royal Lancer by Dodge. Take Command ... Get the Thrill First Hand
